Dear BoConcept customer

Congratulations on your new BoConcept bed. We hope you will be pleased with it!

Here are a few words of warning before you start using your bed:

The open/close mechanism is constructed according to the scissors-principle. This means that there is a potential risk of jamming damages between the open/close mechanism and the sides.

We recommend extra caution when the bed is being folded, especially when children are involved.

With these few steps of caution we are confident that you will be happy with your new product.

Sincerely

BoConcept
